

## A Special Thank You

Happy Fall and thank you all for your support. We have been working hard to make this grant the best it can be, and because of all the schools participating and our industry partners, our dreams for this grant are coming true!

---

## October Workshop

On October 12th, 2019, Project COMPLETE held our second workshop with Homer High School, Summerfield High School, and Haynesville High School. Michael Swanbom, Distinguished Lecturer in Mechanical Engineering at Louisiana Tech University and the grant's co-PI in charge of curriculum development shares, “the skills and knowledge that high-school students will gain going through this program will start them on a path filled with opportunities in a world where the industry is increasingly driven by technology.”

---

## Manufacturing Week

---

BPSTIL participated in Manufacturing Week and visited the International Paper Plant in Mansfield, LA, on Tuesday, October 1st. The students who attended were able to see what the day in the life of an Instrumentation Technician looks like by walking around the plant and having all of their questions answered. It was a fun day filled with learning and excitement. We look forward to planning more trips like this for all the schools participating in Project COMPLETE.

---

## Meet Our Partners

---

PCI Electric, Union Pacific Railroad, AJ Weller, Setpoint Solutions, and Benteler have signed on as Industry Advisors for Project COMPLETE! We wanted to give you a shout out and thank you all for helping this grant be its best for our students. We look forward

*when they graduate.*

*To our advisors - Don't forget to send us your slides so we can show off your company's controls applications to our high schools! We will also be in touch to schedule visits and tours!*
