Announcement for Teachers:

Question banks are now on our website under the Curriculum Slides tab. Starting this spring semester, you can use these questions when creating assignments, quizzes, and tests for your students!

Question Banks

A Special Thank You To Union Pacific Railroad

Union Pacific Railroad has graciously funded \$5,000 in scholarships for incoming instrumentation students. Ten \$500 scholarships will be awarded to graduating high school students this upcoming spring, five attending Louisiana Tech University, and five students attending Louisiana Delta Community College.

Stay tuned for instructions on how to apply, but our tentative current criteria are as follows:

- Incoming students majoring in instrumentation (Industrial Instrumentation Technology at LDCC or Instrumentation and Control Systems Engineering Technology at LA Tech)
- Priority on Project COMPLETE high schools but open to other students too.
- GPA 3.0
- ACT 21
- English ACT 18

- Math ACT 19
- Essay - "Describe your future career plans."

Union Pacific Jobs

NSF ATE PI Conference

Gerry Caskey, Project COMPLETE PI, and Alicia Kiremire, program manager, attended the NSF ATE PI Conference in Washington, DC. We are proud that they were able to represent Project COMPLETE, and learn from other community colleges across the nation - almost 1,000 people attended! Mr. Gerry Caskey said the conference was the "most inspiring thing he's done in his teaching career!" Pictured above is Mr. Gerry Caskey presenting our grant to a fellow NSF associate.

LATM/LSTA Conference

Juliette Pate, our Project Coordinator, attended the LATM/LSTA Conference in Baton Rouge, La. There she presented our grant and was able to reach a new audience in South Louisiana. "The LASER Conference was filled with many charismatic and kind people interested in learning about Project COMPLETE. I was honored to be there representing the grant." Juliette stated.

Project COMPLETE is funded by the National Science Foundation Advanced Technological Education Program.
