

Center for Renewable Energy Advanced Technological Education

The goal of the **CREATE Center** is to advance the field of renewable energy by supporting two-year college renewable energy programs.

- Faculty Professional Development
- Curriculum and Instructional Materials
- Career Pathways and Program Resources
- Industry Partnerships
- Mentoring

Renewable energy provides technicians with good paying, family supporting jobs in STEM careers that cannot be easily exported, while also providing an economic lift to the communities where these individuals live. The CREATE Resource Center will prepare a new generation of renewable energy educators and technical professionals.
