

Coming: October 19-20, 2021

# Cybersecurity Education: Future Directions 2021 Summit

Alexandria, VA

In this summit, cybersecurity educators will examine the progress made by community colleges since the initial 2002 conference. This conference will not only determine the state of cybersecurity education in 2021, but will help to develop a blueprint for the future. The resulting publication will be broadly shared and disseminated.

## Topics include:

- Workforce Study: Community College Cybersecurity Alumni. Where Are They Now?
- CyberCorps Scholarship for Service Program: The Expanding Role of Community Colleges
- Community College Leadership Roles, Including the Impact of the NSA/DHS CAE Program on Community Colleges
- CTE K-12 Pathways of Study in Cybersecurity: The Role of Community Colleges
- National Trends of Community Colleges Offering Bachelor's Degrees: What Are the Current and Future Impacts on the National Cyber Workforce?
- The Successes and Challenges Faced by Community Colleges in Addressing the Evolving Cybersecurity Work Role of Extracurricular Activities in Preparing Students for the Cybersecurity Workforce
- Addressing the Community College Cyber Faculty Shortage
- The Challenges in Building Stronger Community College Cyber Articulation Agreements
- The Achievements and Obstacles in Outreach Efforts to Women and Minority Students
- An Examination of Community College and Government Partnerships
- Innovations in Cybersecurity Classroom Practices: A Spotlight on Community Colleges
- Evidence-Based Assessment: The Role of Extracurricular Activities in Preparing Students for the Cybersecurity Workforce
