

Expanding Educational Opportunities for Nondestructive Testing Technicians

Best Practices in Curriculum Development

An industry vetted competency model for ASNT NDT Level I and II Technicians was developed which will provide key insight into creating Associate Degree level curricula and courses.

Non-Destructive Technician Level 1 Competency Model

Best Practices in Program Development

A White Paper was drafted highlighting best practices to assist community colleges in developing an Associate Degree NDT program. The White Paper provides guidance for NDT program content and laboratory practice.

Discover NDT Career Awareness Wall

An interactive display wall "Discover NDT" was installed inside the AWS Careers-In-Welding Trailer.

In 2019, over 27,000 visitors experienced the Discover NDT Career Awareness Wall!
