

**Intro to Agriscience**  
**Precision Agriculture - Lesson 2**  
**Map Review**

Subsoil Moisture Map

Irrigation Application Map

We discussed in class how one or more maps are used in the decision making process. Based on the Subsoil Moisture Map (used for information in the decision making process) and the Irrigation Application map (the result of the decisions made), discuss the decisions that were made based on what the maps show. Write down your thoughts in the space below.
