

# THE TOOTHPICK FACTORY®

The simulation game for soft skills

## ***The Toothpick Factory©***

is a hands-on activity, set in a manufacturing context, that stimulates discussion and awareness about a wide range of soft skills that are essential in today's work and personal relationships. These are workplace standards of behavior needed by employees to interact and cooperate effectively with co-workers. The hands-on activity engages participants in a non-threatening simulation so they can focus on teamwork and communication skills.

## ***Working on your Soft Skills***

**Teamwork    Listening**  
**Speaking    Adapting**  
**Leading**

## **Professional Development**

### ***The Toothpick Factory© Workshop***

FLATE has facilitated The Toothpick Factory in several different venues. Though our audience differed in their objective for participating, they all praised the activity.

Since 2009 ***The Toothpick Factory ©*** has impacted more than 3200 students, educators & Industry leaders.

Interested to host Toothpick Factory Facilitator's Workshop at your institution, send an email to:
