2014 Dream It. Do It. Minnesota Statewide Tour of Manufacturing Report & Survey

360 works with its external evaluator, Wilder Research, to develop and distribute surveys to measure the impact of the Dream It. Do It. Minnesota Statewide Tour of Manufacturing.

Two surveys are administered: a paper survey to individuals who attended a tour, and an electronic survey to manufacturers who host a tour. Wilder Research receives the surveys and compiles a report with key findings and data tables that are used to improve the statewide tour for the next year.

The participant survey form and the 2014 Statewide Tour Report are included.

If you have questions about the Dream It. Do It. Minnesota Statewide Tour of Manufacturing, please contact Jaimee Meyer at 218-755-2206 or jmeyer@bemidjistate.edu.
